

VISION AND ASPIRATIONS

The Collaboration has a vision and aspirations in the following strategic areas:

Infrastructure - To identify, plan, and rehabilitate traditional cultural infrastructure and ensure their optimum use in order to promote and preserve the cultural heritage of the people and the country.

Education and Programmes - To work with established formal cultural institutions intensify cultural education in the formal and informal sectors and promote cultural values and practices that encourage national unity, social cohesion and harmony so that culture will serve as the basis for wealth creation and socio-economic empowerment.

Human Resource Development - To develop and strengthen the capacity building initiatives within various shrines and other traditional places of healing and community health care to enhance service delivery and productivity.

Employment and Poverty Alleviation - To start a periodic professional development programs that will empower the shrine leaders and staff with skills and opportunities that will increase their capacity to create employment for devotees, advice clients on strategic financial planning and other resources that will serve as the basis for sustainable livelihood and improving quality of life.

Research and Documentation - To undertake research and to document findings which will help to create a database on traditional shrines, healing, cultural protocols, practices and its related disciplines for policy makers, academics, administrators, foreign consulates, International organizations, visitors and all other interested persons.
